ABOUT ME

I have worked as a programmer in the such fields as financial and banking, media, sales, real estate-management, events organization and others.
I'm passionate about mobile development and cycling as a most lovely hobby.
I'm always interested in new projects and glad to meet new challenges.

WORK EXPERIENCE

ANDROID DEVELOPER   Feb 2022 - Currently
Home Credit Bank, Moscow
My general duty here is working on a Home Credit Bank android application.
Being a part of a team that have to keep the project in a correct technical state.
Developing the core features, libraries and application interfaces which used
by other mobile dev teams. Setting up and supporting CI/CD pipelines.

ANDROID DEVELOPER   Feb 2020 - Feb 2022
MoeDelo, Moscow
Developing a big part of the functionality of the main entrepreneur app.
Participate in the development of product requirements.
Engage in the services of analytics, interacting with the marketing department.
Increased the crash-free rate from 95% to 99%.
- Refactoring legacy
- Interaction with Backend teams (api development) and DevOps (assistance in setting up CI/CD)
- Interaction with the marketing team, engage in the services of analytics

ANDROID DEVELOPER   Oct 2018 - Feb 2020
NAI Becar, Saint Petersburg
During my work in the company, I have developed applications for real estate management.
Contractor's application - to perform work on requests.
Application for the customer - for submitting applications.
Application for the head - to control performers.
- Development and support of native and hybrid mobile applications of the company
- Participation in planning the development process.
- Release management
- Interaction with the backend team

ANDROID DEVELOPER + FULLSTACK   Jan 2016 - Oct 2018
TBC Eurasia, Orsk
Developing a bulletin board app, a weather forecast app, a billboard
viewer app, a TV channel app, and a broadcast radio app.
I also developed most of the functionality of the company's web services, including api for applications.

MOBILE DEVELOPER   2014-2016
Several side freelance projects
Made a several projects on Android Native and Ionic/Cordova.
It was something like getting the first commercial experience.
